

School Programs 2021!

Celebrating 29 years of Eco Adventures

Coastal Current Adventures (formerly Island Escapades Ltd.) was created due to Jack Rosen and Candace Snow's love of the outdoors and their passion to educate youth through experiential learning. Our programs focus on outdoor learning, environmental education and group dynamics. Co-founder Jack has worked with youth for over 35 years in government agencies, schools, and privately with this business. His experience and knowledge is vast and the energy and enthusiasm that he exudes is addictive. The staff he has trained and who help co-ordinate the programs are compassionate, fun, experienced, extremely knowledgeable and safety conscious.

All guides have years of experience in the outdoors and working with Youth:

*Certified by SKGABC (Sea Kayak Guides Alliance of B.C.)

*Wilderness First Aid Certified *Hand Held Marine Operators license *Inter-tidal and Interpretive Training *Climbing and Belay Certified

Coastal Current Adventures understands the budget constraints that teachers must work with and have compiled a varied slate of programs offering a wide price range and choice of activities. We have aimed to meet curriculum demands by having teachers place their input into program development. We also offer a special of 1 complimentary teacher per every 15 students. All our overnight programs

are camping and expedition oriented. Groups do have options of staying in Cottages or Cabins. The all-inclusive camping programs based out of Ruckle Park can have any of the activities listed below. Programs are tailor made to suit your class needs, giving a balance of adventure activities and education modules. We have included a second PDF with details of our Eco-Education modules.

HIKING & CLIMBING

SURFING

Ruckle Park Day Programs

This has become a very popular program for schools in the Victoria and Vancouver area. We provide transportation from the Fulford or Long Harbour ferries to and from Ruckle Provincial Park. Day programs at Ruckle may offer leadership initiatives, any of our Eco Education programs, intertidal sessions, hikes, or even kayak sessions (extra pricing). These exciting day programs can include lunch or students can bring their own. Ruckle is a spectacular park located on the ocean in the south eastern side of Salt Spring. The 1200 acre working farm and coastal park is a perfect setting for outdoor education programs or team building activities. We have been running programs here for 25 years so we know the area tailor made to suit your educational/outdoor needs.

building activities. We have been intimately and can set up a program

Full Day without Lunch.... \$85/person

Full Day with Lunch.....\$95/person
